VehicleScore®

209/999 — Very High Risk vehicle history

A scrapped marker or Certificate of Destruction means this vehicle should not be on the road. Also clear: no outstanding finance, no theft marker, no mileage discrepancy.

The records include a severe marker, such as a current stolen flag, a Category A or B write-off, or a scrapped status. VehicleScore reflects risks found in available vehicle records. It is not a mechanical inspection.

VehicleScore® AI analysis BETA

We've analysed this vehicle's history and highlighted what matters, what to check, and what it could mean for you.

AI analysis is based on the information available in this report. It does not replace a mechanical inspection.

Overall assessment

Avoid

This vehicle has a serious history concern.

209/999 — Very High Risk vehicle history

This vehicle is recorded as scrapped or a Category A or B write-off. That makes it unsuitable to buy for normal road use. Also on this report: previous MOT failures. Do not buy until that concern is resolved with paperwork you can check.

Key findings

Scrapped / COD issued Critical

Vehicle should not be on the road.

Previous MOT failures Advisory

Failures are in the MOT history. They are not treated as faults that are still outstanding.
